

CHRISTY TURNER PARTS & SERVICING DIVISION

WEAR PARTS

It is imperative to use genuine parts to guarantee product reliability and performance:

All Christy Turner replacement parts are guaranteed to be manufactured from the most suitable wear materials and to the correct dimensional specification

ON SITE SERVICE WORK

We have a dedicated team of experienced Engineers able to visit your site, assess and carry out any repairs or maintenance.

At Christy Turner we stock recommended spares. By maintaining casting patterns for every machine in our current range, we can also guarantee compatibility of all our genuine OEM parts.

ROLL SERVICING

We offer a complete roll service for your flaking mills including a full bearing service, and regrinding between 250mm dia & 600mm dia with tapers if required

Rolls are supported on the bearing journals for grinding, ensuring concentricity is maintained. Finishes include matted, scratched & fluted up to 600mm dia.

Our Engineers will travel anywhere in the world to provide assistance with roll changes
